ITPIE
AXIOM

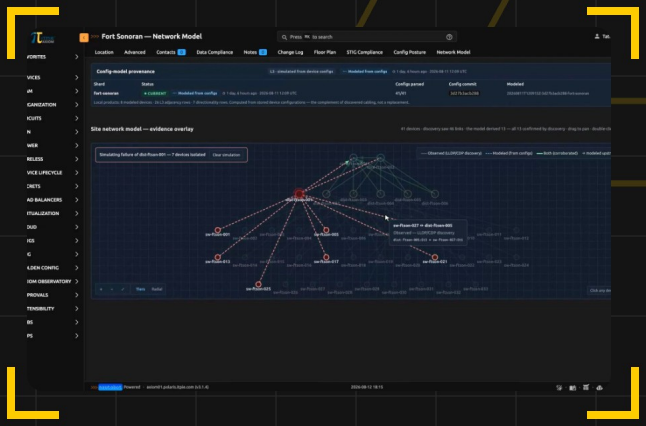
OPERATOR-BUILT · DOW-PROVEN

PRODUCT BRIEF

SOURCE OF TRUTH + AUTOMATION

Template once. Deploy everywhere.

Axiom keeps every network device configured the way you intended, across vendors and sites, and automates the work of proving it.



MODEL A FAILURE BEFORE IT HAPPENS: IF THIS SWITCH GOES DOWN, THESE 7 DEVICES LOSE THEIR CONNECTION.

WITHOUT ITPIE

Someone **changed a device by hand at 0300**, and nobody finds out until the audit or the outage

STIG compliance gets re-proved by hand every cycle

Automation lives in a folder of scripts on one engineer's laptop, one vendor at a time

WITH ITPIE AXIOM

Golden configs as the source of truth, with drift flagged on a schedule you set

Hundreds of STIG rules across Cisco, Juniper and Palo Alto, with findings exported as CKL and POA&M

Packaged automation jobs out of the box, multi-vendor, run from one source of truth

THE OUTCOME

BEFORE

~~Inspection scramble~~

WITH ITPIE AXIOM

Inspection-ready, every day.

sales@itpie.com

ITPIE AXIOM

Trust what you know.

Pre-stage new devices

Build golden configs before hardware arrives, ready to push when it's racked.

Scale one template

One golden config template generates configs for hundreds of devices.

Push-button remediation

Fix common security and compliance issues across devices in one push.

Run upgrades as a campaign

OS upgrades staged, installed and verified device by device.

Model a failure first

Foresight, an Axiom plugin: if this switch goes down, these 7 devices lose their connection.

EVERY DEVICE

Held to its golden config.

PROGRAMS + USE CASES

STIG compliance + accreditation
RMF · ATO · INSPECTIONS

✓ DISA STIGs imported as published, so you stay assessed between inspections.

Zero trust + cyber posture
91 OUTCOMES BY 2027

✓ Show that every device matches approved policy, checked on a schedule you control.

Network modernization
NETMOD · COMPMOD · CUTOVERS

✓ Update templates, find non-compliant devices and push configs as one controlled workflow.

BETTER TOGETHER · ATLAS, AXIOM + FULCRUM RUN AS ONE ON POLARIS

+ Atlas

Discovered state syncs in, so the source of truth matches the network as it really is.

+ Fulcrum

Ask config questions against the source of truth in plain language.

+ Polaris

Every deployable product pre-integrated on one hardened appliance. STIG and SBOM evidence rollup: in development.

HOW IT'S BOUGHT

Standalone or in the suite · Subscription · On-prem or air-gapped

DOW-PROVEN · ARMY NETMOD RAN ON ITPIE

85,000+ SWITCHES

99% CONFIG ACCURACY

$12M+ SAVED

Zero DISRUPTIONS
